

KHUSHI JHA

kj5485@srmist.edu.in | 8766397385 | 2027
B.Tech, Computer Science and Engineering - Data Science
Address : House No.44, West Sant Nagar Delhi

Summary

Motivated B.Tech CSE (Data Science) student with hands-on experience in programming, data analytics, and full stack web development. Skilled in analyzing data, building web applications, and solving real-world problems using modern technologies. Eager to contribute technical expertise while continuously learning and growing in the tech industry.

Education

SRM IST-Ghazhiabad	2027
B.Tech · Computer Science and Engineering - Data Science	CGPA - 7.68/10
ROSARY SENIOR SECONDARY SCHOOL	2023
Class XII - CBSE · Mpc · Radio colony Kingsway camp delhi-09	Percentage - 63%
ROSARY SENIOR SECONDARY SCHOOL	2021
Class X - CBSE · Mpc · Radio colony Kingsway camp delhi-09	Percentage - 77.4%

Projects

E-Commerce Sales Dashboard - Power BI Link	Oct 2025 - Nov 2025
· Microsoft Power BI , Microsoft Excel ,CSV datasets	Data Analytics
• Designed an interactive dashboard to analyze sales KPIs, regions, and product categories.	
• Created time-series visualizations to support trend analysis and sales forecasting.	
• Implemented dynamic slicers and filters for enhanced business decision-making.	
• Identified top-performing products and underperforming regions for strategic insights.	
Movie Recommender System - Machine Learning Link	Feb 2026 - Mar 2026
· Pandas, Numpy ,Scikit-learn ,Flask	Machine Learning,AI
• The Movie Recommender System is a machine learning–based application that provides personalized movie recommendations to users based on their interests.	
• It analyzes user viewing history, ratings, and movie features such as genre and actors to understand user preferences.	
• The system predicts movies that a user is most likely to enjoy by identifying patterns in user behavior and movie data.	
• The main aim of the project is to enhance user experience by giving accurate and tailored movie suggestions.	
Text-Spam- Classifier Link	Mar 2026 - Apr 2026
· Pandas, NumPy , Scikit-learn , NLTK , Pickle , Streamlit ,Flask	Machine Learning,Nlp
• Developed an SMS spam detection system using Multinomial Naive Bayes.	
• Performed text preprocessing including tokenization, stop-word removal, and TF-IDF.	
• Achieved high classification accuracy distinguishing spam from legitimate messages.	
• Structured the project with dataset handling, model training, and optional UI testing	
Image Classifier - Deep Learning Link	Apr 2026 - May 2026
· Python , Jupyter Notebook ,TensorFlow, OpenCV ,GitHub, Deep Learning (CNN)	Deep Learning
• Built a CNN-based image classification model using TensorFlow and Keras.	
• Applied image preprocessing, data augmentation, and train–validation splitting.	
• Evaluated model performance using accuracy metrics and confusion matrix.	
• Integrated OpenCV for single-image prediction and real-time	

Certifications

Introduction to ERP using GBI 3.30 on SAP S/4HANA Link SAP University Alliances Completed a 4-month training program (July – November 2025) on Enterprise Resource Planning fundamentals using the Global Bike Inc. (GBI) 3.30 model on SAP S/4HANA, conducted by the Dept. of CSE, SRM Institute of Science & Technology, in collaboration with SAP University Alliances. Gained hands-on exposure to core SAP modules, integrated business processes, and real-world ERP implementation scenarios.	Feb 2026
Natural Language Processing Link NPTEL Successfully completed a 12-week NPTEL course on Natural Language Processing by IIT Kharagpur (SWAYAM), earning an Elite certification with a 57% consolidated score. The course built a solid foundation in NLP concepts, language models, and AI-based text processing.	May 2026
Graph Theory Programming Camp Link AlgoUniversity Solved 17 advanced graph problems on AlgoUniversity under the mentorship of Manas Kumar Verma (Codeforces Master), strengthening problem-solving skills and deepening expertise in complex graph algorithms and data structures.	Apr 2026
Learn Python Programming -Beginner to Master Link Udemy Completed a 57-hour comprehensive Python programming course on Udemy, instructed by Abdul Bari, covering concepts from beginner to advanced level (October 2024).	Oct 2025
Artificial Intelligence Beginners Guide Link Simplilearn Successfully completed the Artificial Intelligence Beginners Guide online course offered by Simplilearn (SkillUp) on 24th April 2025, gaining foundational knowledge in AI concepts and its real-world applications.	Aug 2025

Publications

Early Detection of Patient Deterioration using Continuous ECG Waveform Analysis: A Feature-Driven Composite Deterioration Index Approach

Skills

Languages and Frameworks: Scikit-learn, Numpy, Pandas, Matplotlib
Domain Knowledge: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating System, Computer Networks
Tools and Technologies: Microsoft Excel, Microsoft Power BI, SQL, HTML, CSS
Areas of Interest: Machine Learning Projects, Data Analysis
Programming Languages: Python, JAVA

Languages

English [Native Proficiency], Hindi [Native Proficiency], Maithili [Fundamental Proficiency], German [Fundamental Proficiency]
